## **iliad**– *Software Engineer*

Milan | November 2022 – Present

I develop web applications for corporate platforms and customer care applications using modern technologies.

For the front-end I use **Vue.js**, **Nuxt.js**, **Angular** and **TypeScript**.

For the back-end I use **PHP**, **Python** and **Node.js**.

I also work with **Strapi CMS** for corporate websites to improve content management.

I use **Docker**, **Argo** and **MinIO** for synchronization and deployment. I manage releases using Docker and SSH.

I also worked in France with the Iliad Group (Free Mobile), helping the team with software development and new projects. I work closely with developers and stakeholders to keep the workflow simple and efficient.

## **RCS Media Group** – *Front End Developer*

Milan | September 2021 – November 2022

I developed front-end components for **Corriere della Sera** and **Gazzetta dello Sport**.

My work included:

- HTML and SCSS layouts
- JavaScript ES6 development
- Jest testing
- SSI integration
- SEO improvements
- Website performance optimization
- Daily coordination of consultants
- Working with the marketing team

I was also the **Focal Point** for some projects and improved my management skills.

## **Sky Italia** – *Front End Developer*

Milan | 2018 – September 2021

I worked in the Technology Software Centre improving the performance of Sky websites such as:

- Sky Sport
- Sky TG24
- Sky Spettacolo

I used:

- Google Lighthouse
- SpeedCurve
- Sitespeed.io
- JavaScript ES6
- Node.js
- Atomic Design
- Responsive Design

Later I joined the Editorial Agile Team where I helped redesign editorial websites, coordinated team members and took part in technical decisions.

I also gave internal presentations and was a speaker at **CSSDAY 2021**.

Previous work at Sky:

- **SkyTG24 (2018):** Infinite scrolling development.
- **AM Team (2016-2018):** Bug fixing and CSS/HTML integration in Adobe Experience Manager (AEM).
- Tools: Git, AEM Sightly, Photoshop, Sketch and InVision.

## **Eidon Srl – Software Engineer**

Milan | November 2015 – January 2018

Projects for **RCS Media Group** and **Sky Italia**.

Main activities:

- Front-end bug fixing
- Ticket management
- Support for Digital Edition app
- Sky Go redesign
- Advertising testing
- Front-end development in AEM
- Working with designers using Photoshop

## **PREVIOUS EXPERIENCE**

- Fondazione "Aiutare i Bambini" Onlus – Back Office Employee
- Seat Pagine Gialle SpA – Web Designer
- MyJobPage S.r.l. – Web Designer
- Saporie.com – Graphic Designer

## EDUCATION

**ITIS G. Marconi**

2006 - 2011

Diploma in Computer Science.

## CERTIFICATION

Develop Websites and Components in Adobe Experience Manager

## OTHER

I have a B license and I am self-driving.

I am willing to take training courses.

I am willing to travel.

I am highly motivated.

In faith,  
Matteo Lullo
